EXPERIENCE

Salesforce Developer

Merkle

📅 09/2022 - Present 📍 Dublin, IE

Where my journey started and advanced from having no Salesforce, Apex, or Java experience to becoming 2x certified and project-ready in less than three months. Currently 7x certified and worked on eight 2-6 month projects. Some memorable skills acquired along the way:

- Experience in fundamental aspects of project management, including the Agile methodology, Atlassian suite tools, version control, testing, and documentation.
- Refactoring and improvement of Stripe API processes in an NPSP based Salesforce org. Testing the callouts in Postman while extensively documenting the paths using flowcharts.
- Implementing numerous no code solutions, automations and customizations using Salesforce OOTB features.
- Implementing more complex solutions such as Triggers, Batch Apex, Scheduled Jobs, scripts enabling PMD violation reporting and more.
- Fixing Bitbucket pipelines, merge conflicts and handling UAT deployment.
- Two-way integration with an external inventory system while supporting bulk operations.
- Creating reusable LWC components for the portal as per designer mockups.
- Mock data creation and migration using Data Loader, documenting the step-by-step process for test migration runs.

EDUCATION

Full Stack Software Development

Code Institute

📅 09/2020 - 11/2021 📍 Dublin, IE

Business Enterprise

University College Birmingham

📅 09/2016 - 09/2018 📍 Birmingham, EN
